

**REMARKS**

Claim 38 is the only claim presently pending in the application. Applicants have canceled claims 1-37 without prejudice or disclaimer. Applicants have added claim 38 to provide more varied protection for the claimed invention.

On March 25, 2008, the undersigned attorney contacted Examiner England by telephone. The undersigned attorney announced his intentions to file a preliminary amendment cancelling claims 1-37 and adding claim 38 in which the limitations from original claims 1-7 and 9-11 would be included. The undersigned attorney communicated that this was being done to place the application in condition for allowance. The Examiner had not looked at the case yet and wanted to make sure the Preliminary Amendment was submitted in proper form.

It is noted that the claim amendments are made only for more particularly pointing out the invention, and not for distinguishing the invention over the prior art, narrowing the claims or for any statutory requirements of patentability. Further, Applicants specifically state that no amendment to any claim herein should be construed as a disclaimer of any interest in or right to an equivalent of any element or feature of the amended claim.

Should the Examiner find the application to be other than in condition for allowance, Applicant requests the Examiner to contact the undersigned at the local telephone number listed below to discuss any other changes deemed necessary in a telephonic or personal interview.

The undersigned authorizes the Commissioner to charge any deficiency in fees or to credit any overpayment in fees to Assignee's Deposit Account No. 50-0510.

Respectfully Submitted,

Date: April 3, 2008
